

SCHEDULE & MAINTENANCE OF TRAFFIC

Maintaining traffic flow during construction is a priority for I-15 CORE. For the majority of construction, the existing number of general purpose lanes will remain open – four lanes each direction north of University Parkway and three lanes each direction south of University Parkway. To make it possible to maintain open lanes for the rest of construction, some areas of I-15 south of University Parkway will be reduced to two lanes for a period of time, as shown in the table below. These closures will require commuters and residents to make some adjustments to the way they travel.

Maintenance of Traffic (MOT) Phasing

Key Milestones

Construction of I-15 CORE is scheduled to be completed as early as December 2012, two years ahead of the requirement.

January 2010

Notice to Proceed #1
(Design and Pre-construction)

June 2012

Scheduled Phase 1 Completion
(Lehi Main St to Pleasant Grove)
